

ROYALE BLACK[®] P8242

PRODUCT PROFILE

P8242 exhibits good processability and offers a good balance between cost and performance for applications requiring medium to high opacity and weatherability. It can be used for thicker multilayer films, pipes and drip laterals.

P8242 is a general purpose pigment black suitable for web offset lithographic printing inks and a broad field of liquid ink applications. It provides medium intensity while maintaining good dispersibility in printing ink.

This product is commonly used as all-purpose pigment in building product applications, as textiles colorants and refractory applications.

The dispersibility of P8242 depends on the equipment used and formulation.
