SUDARSHAN

First Choice For New Formulations

Why Us?

About Us

Sudarshan is a leading global producer of performance colorants, manufacturing an extensive range of Organic, Inorganic and Pearlescent pigments as well as Dispersions.

Sudarshan's quality pigments and dispersions add outstanding performance, long term protection, brilliant color and special effect to the Coatings, Plastics, Printing Ink, Cosmetics, Paper and Textile industries.

Sudarshan has over 60 years of manufacturing experience, with sales in more than 85 countries and sales presence in North America, Europe, China and Latin America.

Technical Capability, Infrastructure and Commitment to Quality

Our commitment to being a world class solution provider is maintained by our technical capabilities and an infrastructure that supports the wide customer base that we cater to.

This capability is a combination of a comprehensive gate-review process in product development; state-of-the-art analytical testing facilities that enable a wide range of investigative methods and a data driven approach; and an application lab that accurately recreates the behavior of our product in our customer's application to provide the optimal solution.

Each year, we invest substantially in R&D and Applications Service to support our customers technically and to extend our range of products to meet our customers' requirements.

Our quality, environment and safety systems are based on and accredited with international standards. Our improvement programs are being driven through 6-sigma methodology.

	Sudafast™ Green 2727C	PG 7	Phthalocyanine	○	●	●	●	Transparent	8/8	5/5	200	5

● Suitable for application ○ Potential Use

Note : The values displayed in the oil absorption column are in tolerance of ±10%

Light fastness is assessed on 1-8 Blue Wool Scale where 1= Poor & 8 = Excellent

Weather fastness is assessed on 1-5 Grey Scale where 1= Poor & 5= Excellent

Color Reproduction: For technical reasons connected with color reproduction, the colors shown may not exactly match the pigment colors and do not represent a particular finish.

Tint shades are reproduced with a ratio of Pigment: TiO₂ = 1:10.

Light fastness is assessed on 1-8 Blue Wool Scale where 1= Poor & 8 = Excellent

Weather fastness is assessed on 1-5 Gray Scale where 1= Poor & 5= Excellent

Pigments

For Industrial & Transportation Coatings

Products

Sudarshan brings a unique opportunity to the industrial, transportation and automotive sectors: leading products, excellent service and exceptional value.

At Sudarshan, we use 6-Sigma production techniques to ensure that the highest quality products are consistently delivered from our plant to serve the most stringent demands of the high performance coatings industry.

Affordable color without compromise.

Technical Properties

- Bright and intense colors
- High tinctorial strength
- Good range of opaque and transparent pigments
- Wide choice of economic and premium products
- Wide compatibility across reactive and non-reactive binders and curing agents
- Readily dispersible
- Excellent lightfastness and weatherfastness

Sudarshan pigments are generally equivalent to or superior than other leading products and they offer exceptional value-in-use.

Color Combinations

The transparent colors in the range are easily combined with pearlescent pigments, in our Sumica™ range, or metallics, to produce excellent special effects which are stable to typical stir-in processes. They are suitable for interior and exterior applications, with special weather-resistant grades.

Disclaimer: The information included here is based on the most reliable data generated by our laboratories. Since the performance of a pigment also depends on the additives and polymers used, we recommend that customers should test the suitability of the pigment for their end application. However, if we are provided with testing methods and samples, we would be glad to do the same.

We will do our best to provide products of consistent quality, within the scope of the general conditions of sale and delivery. Should, in spite of these precautions, any liability be established, the damage, if any will be limited to the value of the goods delivered by us and used by you.

All data is based on internal testing and does not guarantee specific properties or performance. Samples are available for customer testing on request. The quality of our products is guaranteed under our general conditions of sale.
